

## WEB SITES

### **INCOSE**

[www.incose.org](http://www.incose.org)

The International Council on Systems Engineering (INCOSE) was formed to develop, nurture, and enhance the interdisciplinary approach and means to enable the realization of successful systems. INCOSE works with industry, academia, and government to disseminate systems engineering knowledge, promote collaboration in systems engineering, establish integrity in systems engineering standards, and encourage research and educational support for systems engineering processes and practices.

### **Where in Federal Contracting?**

[www.wifcon.com](http://www.wifcon.com)

Where in Federal Contracting? is a free, noncommercial site that serves the federal and state acquisition and the federal assistance community, including public and private organizations. It provides quick access to acquisition and assistance information such as contract laws and pending legislation, current and proposed regulations, courts and boards of contract appeals, bid

protest decisions, contracting newsletters, selected analysis of federal acquisition issues, federal assistance policy, daily listings of grants and cooperative agreements, archived listings of grants and cooperative agreements, and federal assistance sites.

### **Practical Software and Systems Measurement**

[www.psmc.com](http://www.psmc.com)

Practical Software and Systems Measurement (PSM): A Foundation for Objective Project Management was developed to meet today's software and system technical and management challenges. The Department of Defense and the U.S. Army sponsor PSM. The goal of the project is to provide project managers with the objective information needed to successfully meet cost, schedule, and technical objectives on programs. The PSM is based on actual measurement experience on DoD, government, and industry programs. The PSM supports current software and system acquisition and measurement policy.
